I-293-001

I was pretty upset at your town meeting. I got there at 6:30 it was suppose to close at 7:00. They packed up + left before I got away from the first booth. They couldn't wait 5 min. to answer my questions.

They couldn't answer abt of the question I did ask.

I'm concerned because the map shows the line going through the middle of my property for 2 1/2 miles. I have good pasture and cattle out there. I do not want it through the middle.

I-293-002

I-293-003

My question about damage to the cattle herd were not answered. One study for a couple of years is not proof that my herd will not be damaged. It might take years before we see the real damage. If a woman living around the lines will abort why would a cow not?

You can put the line on the other side of the North fence but I would get the damage anyway. If it has to be that close I would rather be the one getting paid.

I-293-001: Public Involvement Process (In Review)

Your email/letter/comment form has been received and your comment noted. The project is in the planning and environmental review stages. Current project information will be available on the RUS project website, <http://www.usda.gov/rus/water/ees/ea.htm> and the Utilities' project website, <http://www.socotransmission.com/>.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-293-002: Agricultural Resources (In Review)

Your email/letter/comment form has been received and your comment noted. Potential impacts and mitigation measures regarding agricultural resources from the proposed project will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-293-003: Electrical Characteristics (In Review)

Your email/letter/comment form has been received and your comment noted. Electrical characteristics of the proposed project and mitigation measures will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-293-004

By the way I never got a chance
to see what the lines look like or
how much you are paying for it
to be on my land. I haven't had
a chance to find out how much it
will lower the value of my land.
I need answers.
Like -

will you put up a new fence
so the cattle can't get so close
to the line?

I-293-005

Will you buy an insurance policy
that will pay for my head if it
starts to have problems?

wanting to hear
from you

I-293-004: Environmental Consequences (In Review)

Your email/letter/comment form has been received and your comment noted. Potential environmental consequences and mitigation measures from the proposed project will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at
<http://www.usda.gov/rus/water/ees/ea.htm>.

I-293-005: Agricultural Resources (In Review)

Your email/letter/comment form has been received and your comment noted. Potential impacts and mitigation measures regarding agricultural resources from the proposed project will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at
<http://www.usda.gov/rus/water/ees/ea.htm>.
